Excellent teacher, good feedback and good explaining the class
Great professor that makes you understand the material and wants you to excel. She is available for questions and is always creating incentives to make sure you try and do your best on every assignment to prepare you for the exam. Overall, caring for her students and enjoys what she teaches.
Great professor, does her hardest to make sure we understand every chapter
Great teacher overall!
I really enjoyed the class. I think that what I learned in class, all the tools and theory, are really going to help me and shape my future as an economist.
Thanks for letting me take my test early and I learned so much. Regardless of the grade I get in the class I really enjoyed it.
The professor makes a large effort to try to get the students to learn.
Very approachable and easy to work with.
Very good at explaining concepts.
When teaching this class in summer, it would be best to have 3 exams (4 chapters each) instead of two.
You are amazing! Thank you so much for the knowledge that you've brought to me. I am forever grateful!
amazing instructor
class is very well prepared and resources are given for students to succeed in the class
great teacher. always has her door open for students that want to learn.
nice
she is a great teacher she cares for her students and explained everything very well.
test heavy

Great professor! Always willing to help her students.
Great teacher overall
Great teacher very caring!
Great teacher. Explains content well, very helpful. Complex content therefore sometimes difficult to understand.
Hiriscau is a great Professor. She makes the class very interactive so you won't lose interest. She sends email reminders for exams and goes in depth during class on how to complete assignments.
I like the way she explains lectures.
More clarification
Overall I thought she was a good professor.
Professor very kind, but not the best at explaining macroeconomic concepts--very confusing and difficult to follow.
She is a great professor that cares about her students and making sure that we all learn the material and do our absolute best.
She is a really great professor who cares about her students and she is very knowledgeable.
She is one of the nicest professors I ever had.
She is very nice and expects a lot of her students. The class could be a bit more engaging but she is a very good professor overall.
She's a really good teacher It's just her preparation doesn't always match the test in my opinion.
Test are kind of hard
The professor knew her content however the classroom was not engaging because everything that was taught in class could also be found in the powerpoints. So every thing was repeated several times.
Very fair and great instructor overall
Very good professor
excellent professor
talk a bit louder, and not just read powerpoint and keep class entertaining.
